

BIASC JUNIOR BUILDER PROGRAM

BUILDING FOUNDATIONS FOR OUR YOUTH

PROGRAM HIGHLIGHTS

Junior Builder, proudly operated by Builders for Better Communities, a 501(c)(3) charitable foundation, is here to inspire the next generation of architects, engineers, designers, and more.

Established in 2019: With five years of transformative experiences, we've been shaping young minds and building futures.

Camps & Events: Our dynamic programs are conducted across Los Angeles, Orange County, and the Inland Empire, providing unparalleled opportunities for hands-on learning and discovery.

Media Spotlight: Featured in the LA Times, OC Register, and Pasadena Star News, our impact and innovation have captured the community's attention.

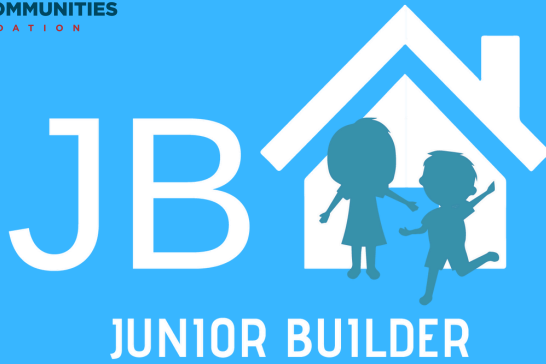

Pioneering Approach: This is the first Junior Builder program in the United States designed to blend onsite field trips with cutting-edge design-build online programs for children to gain both practical skills and digital expertise.

Achievements: Our camps ignite passion and creativity in a fun, interactive environment. From teamwork to problem-solving to helping empower young builders to make a positive difference in their communities.
